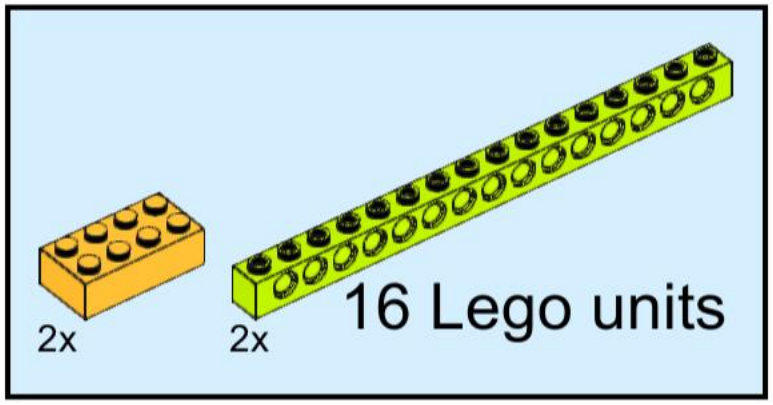
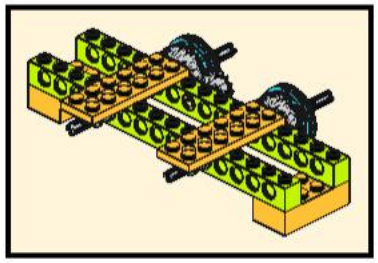
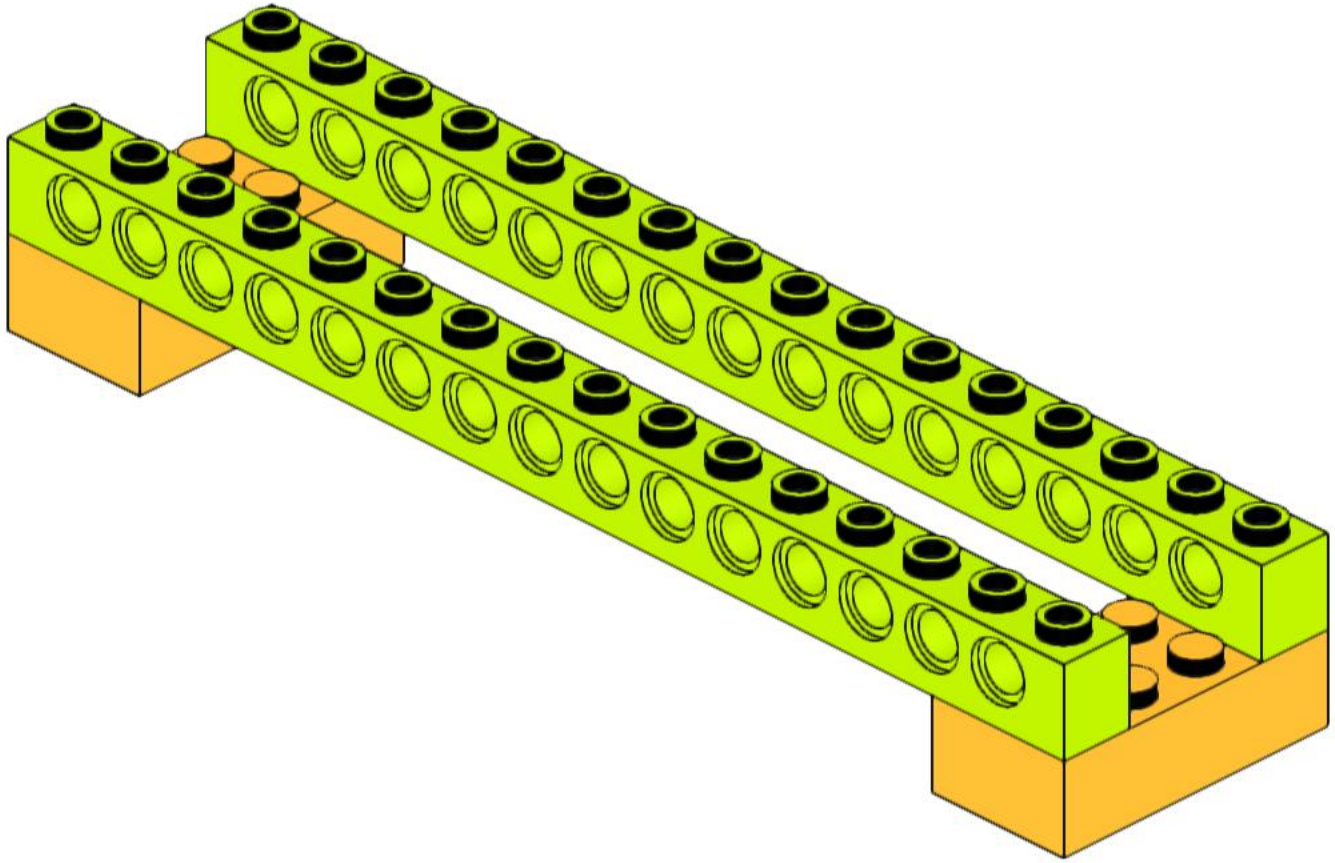
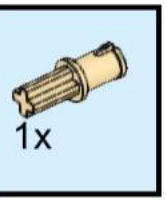
1

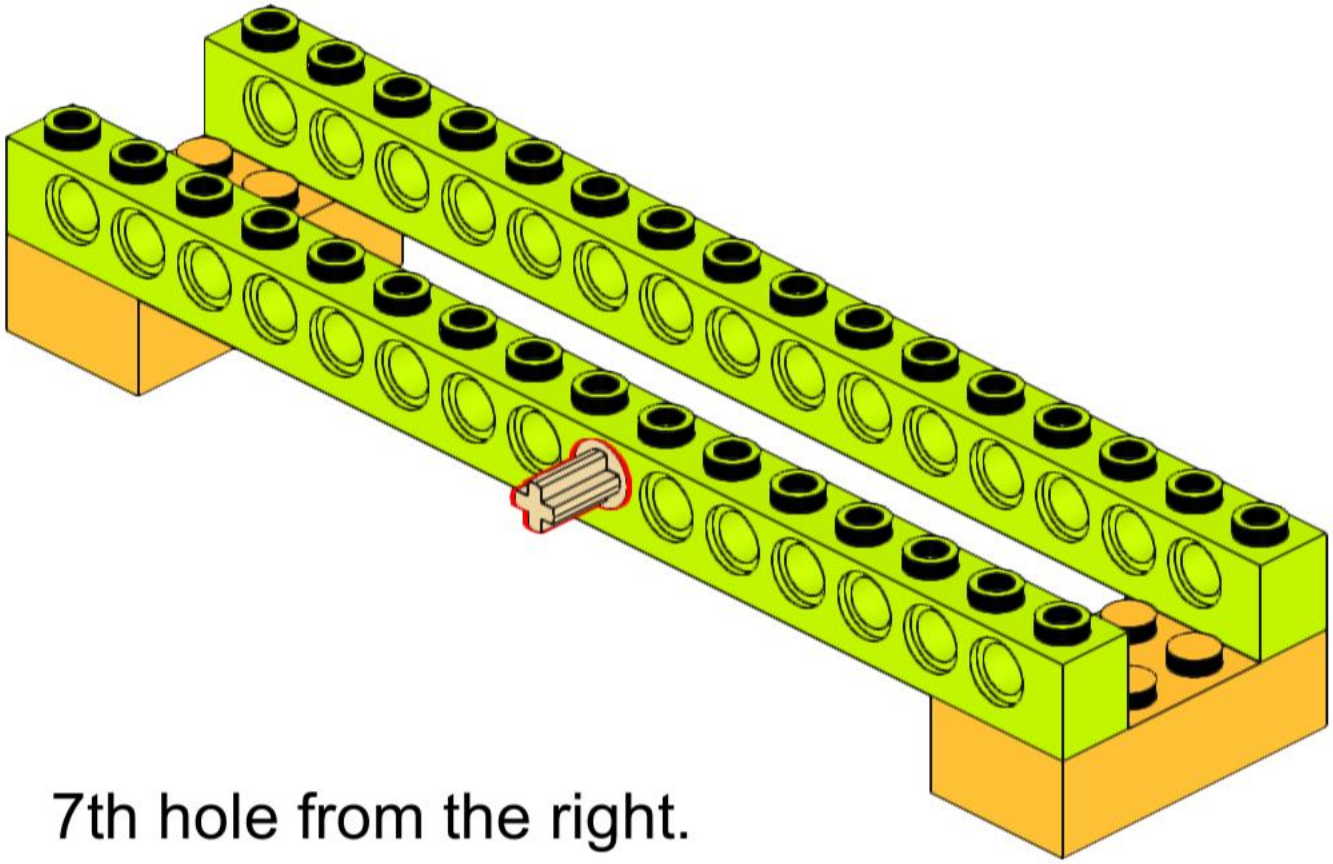






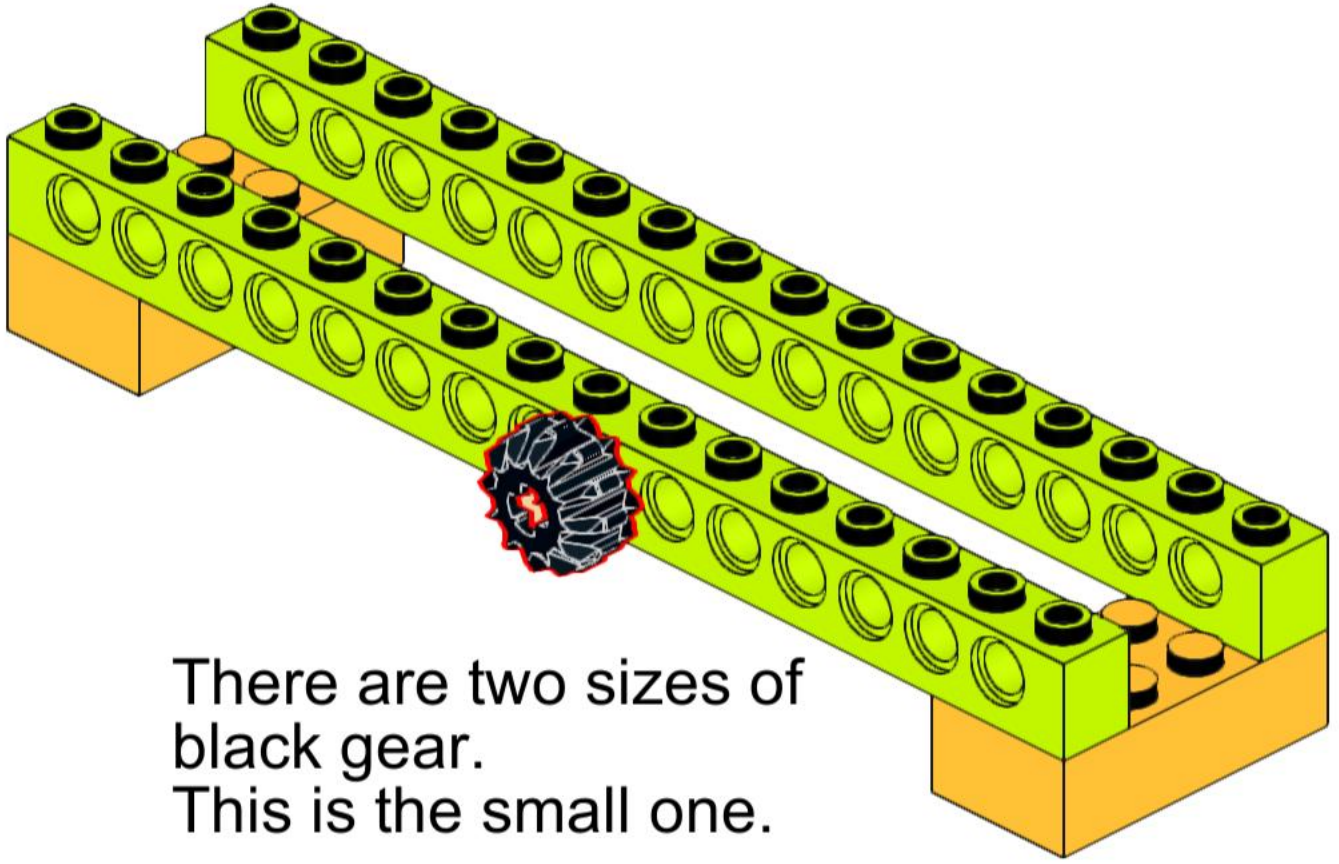
2





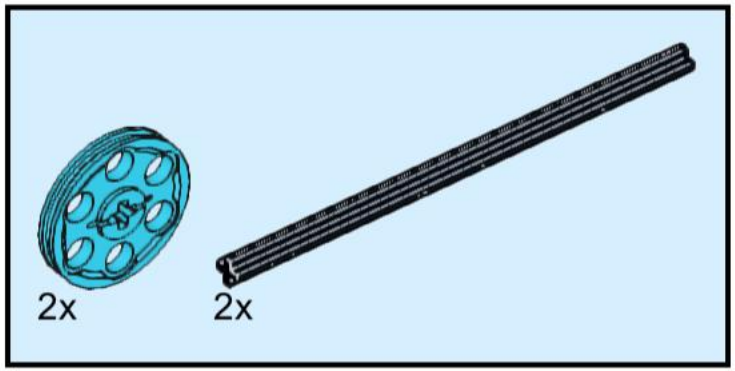
7th hole from the right.

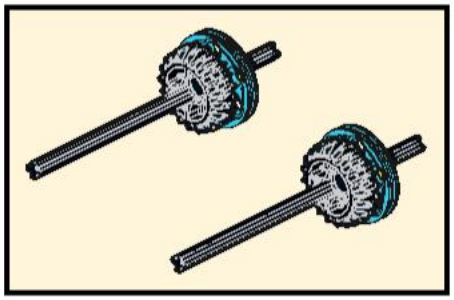
3

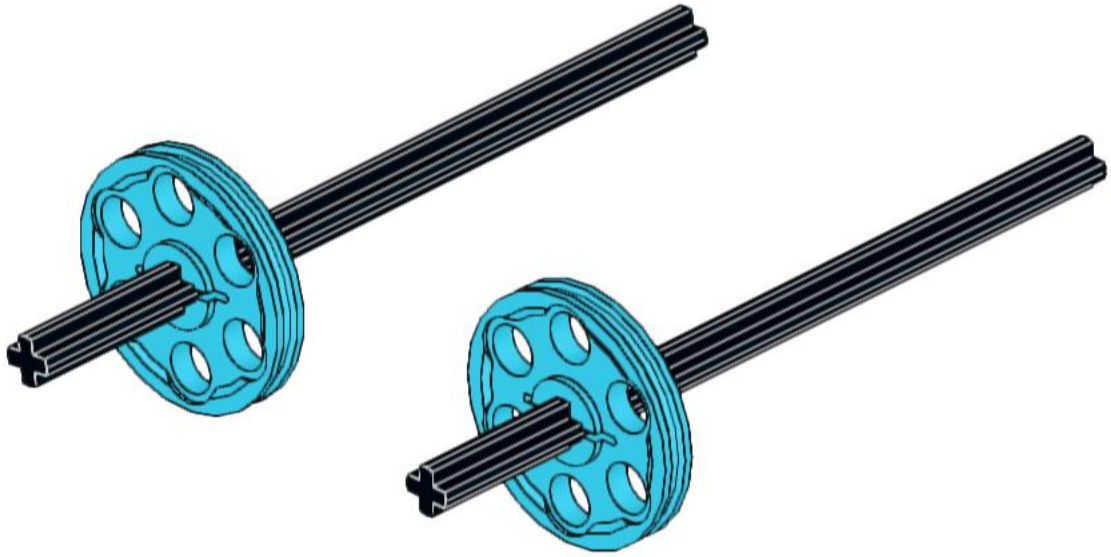


There are two sizes of
black gear.
This is the small one.

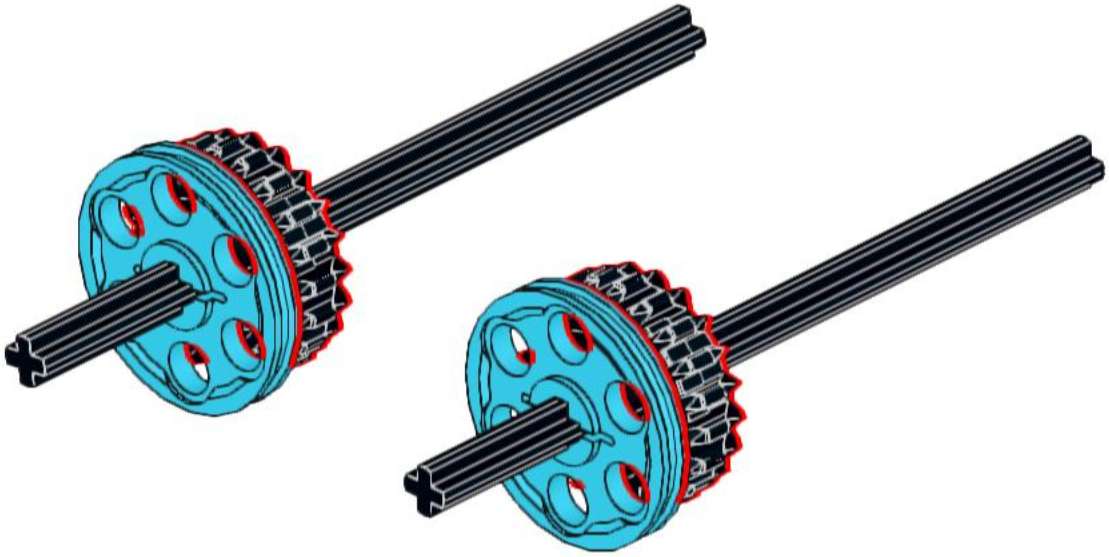
4



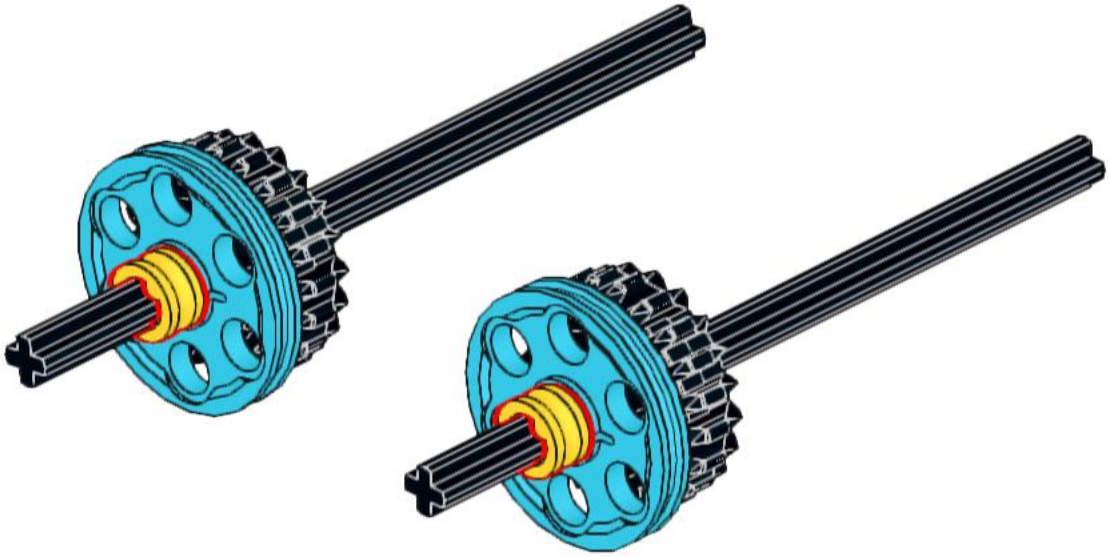




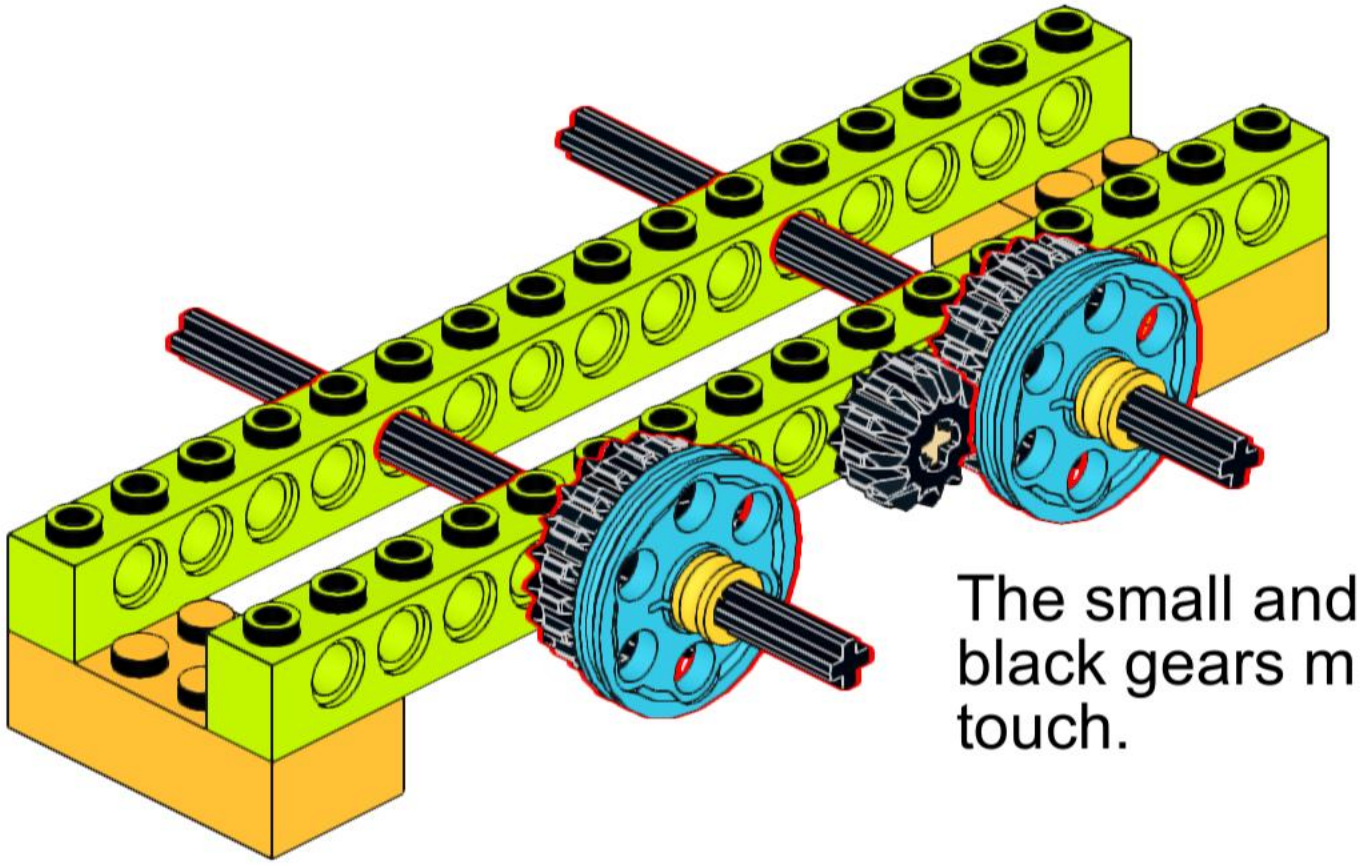
5



6

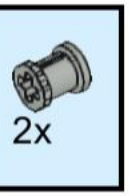


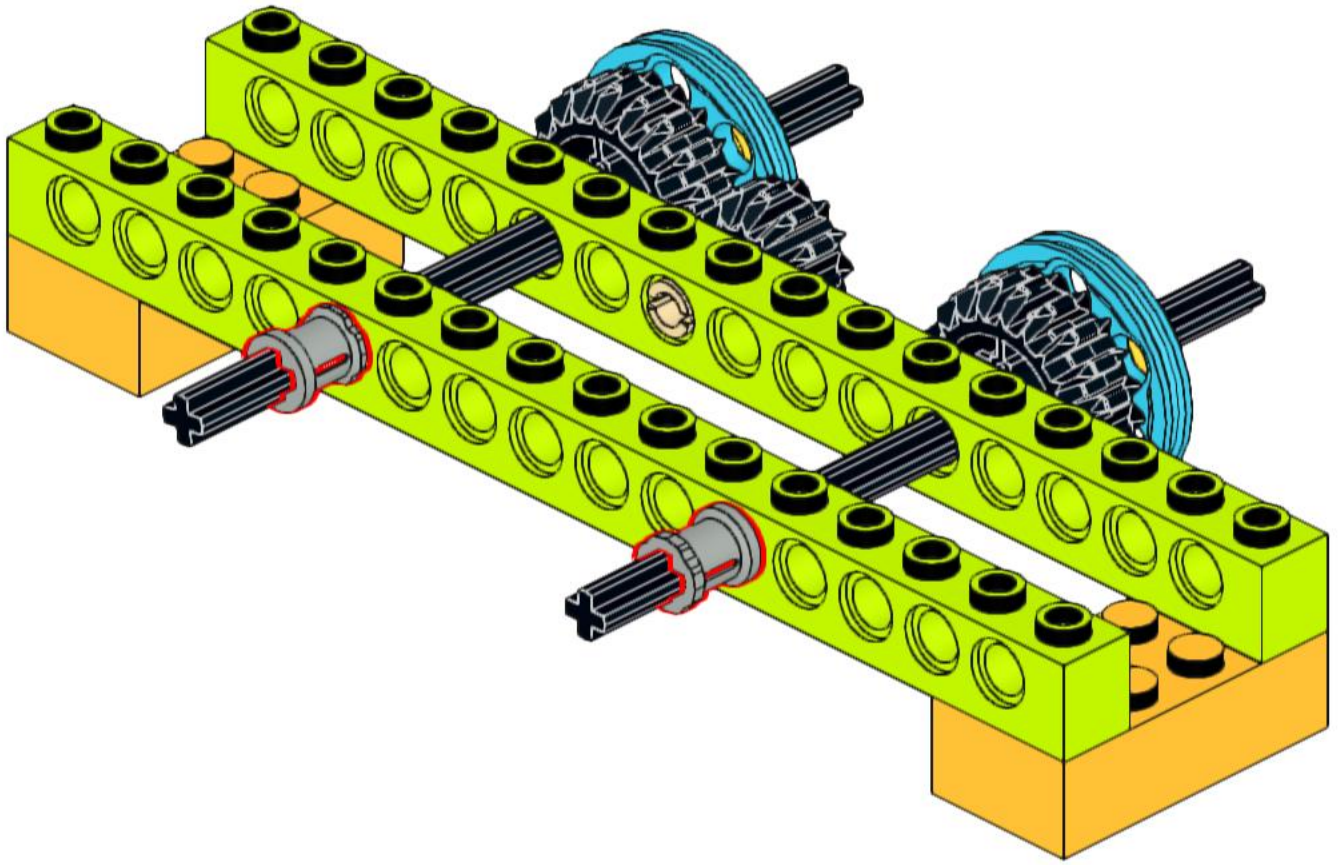
7



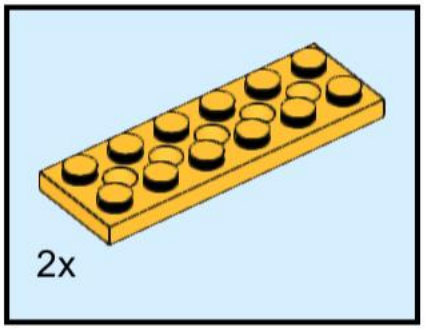
The small and large black gears must touch.

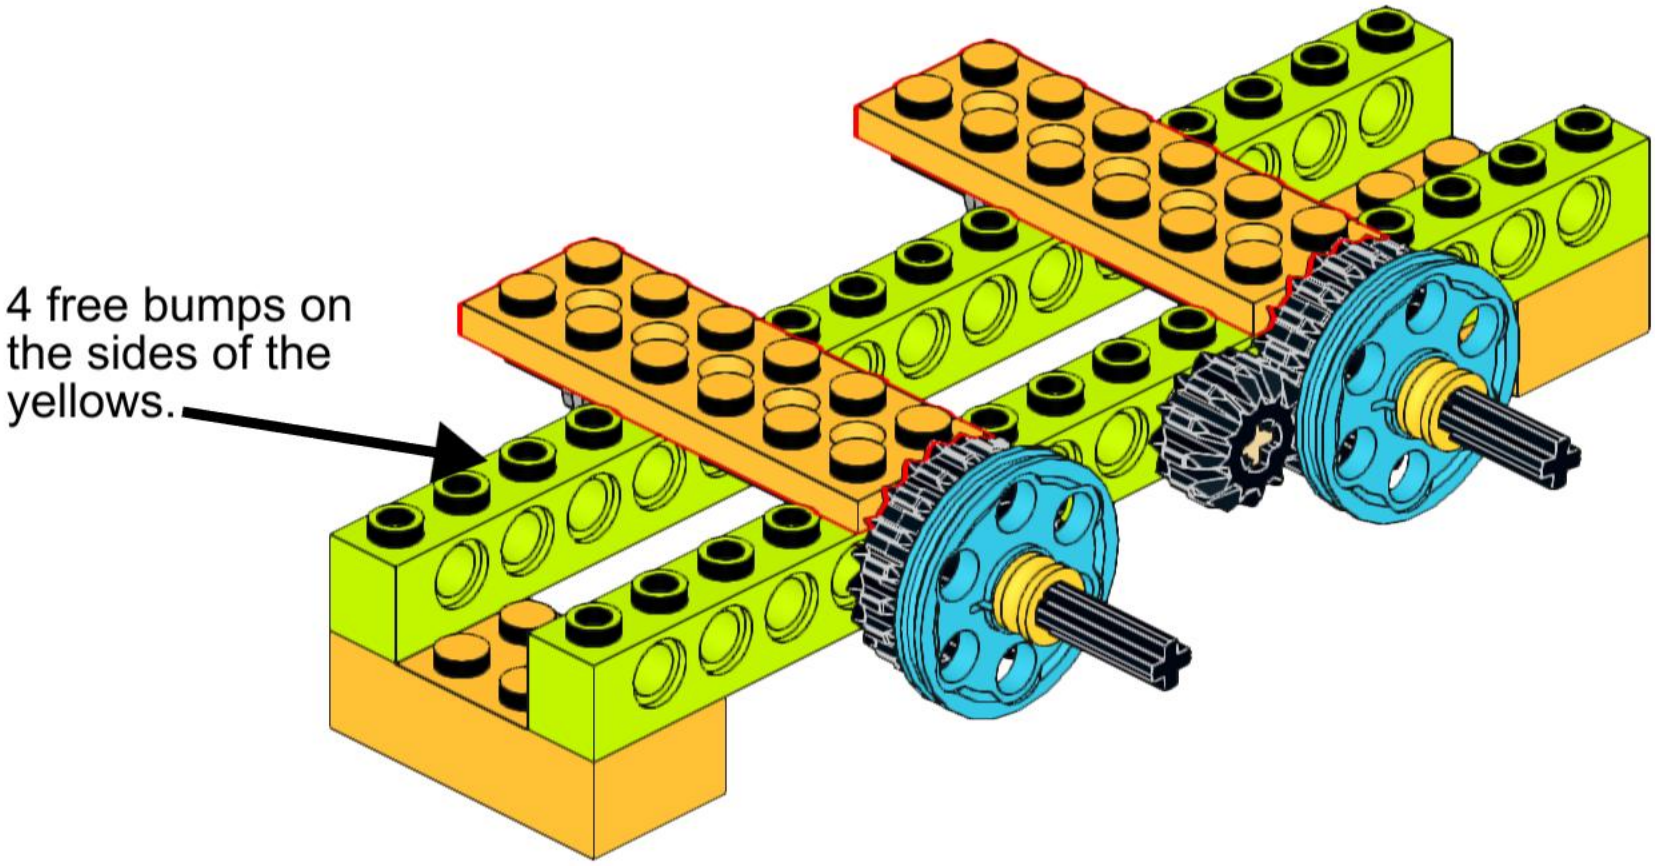
8



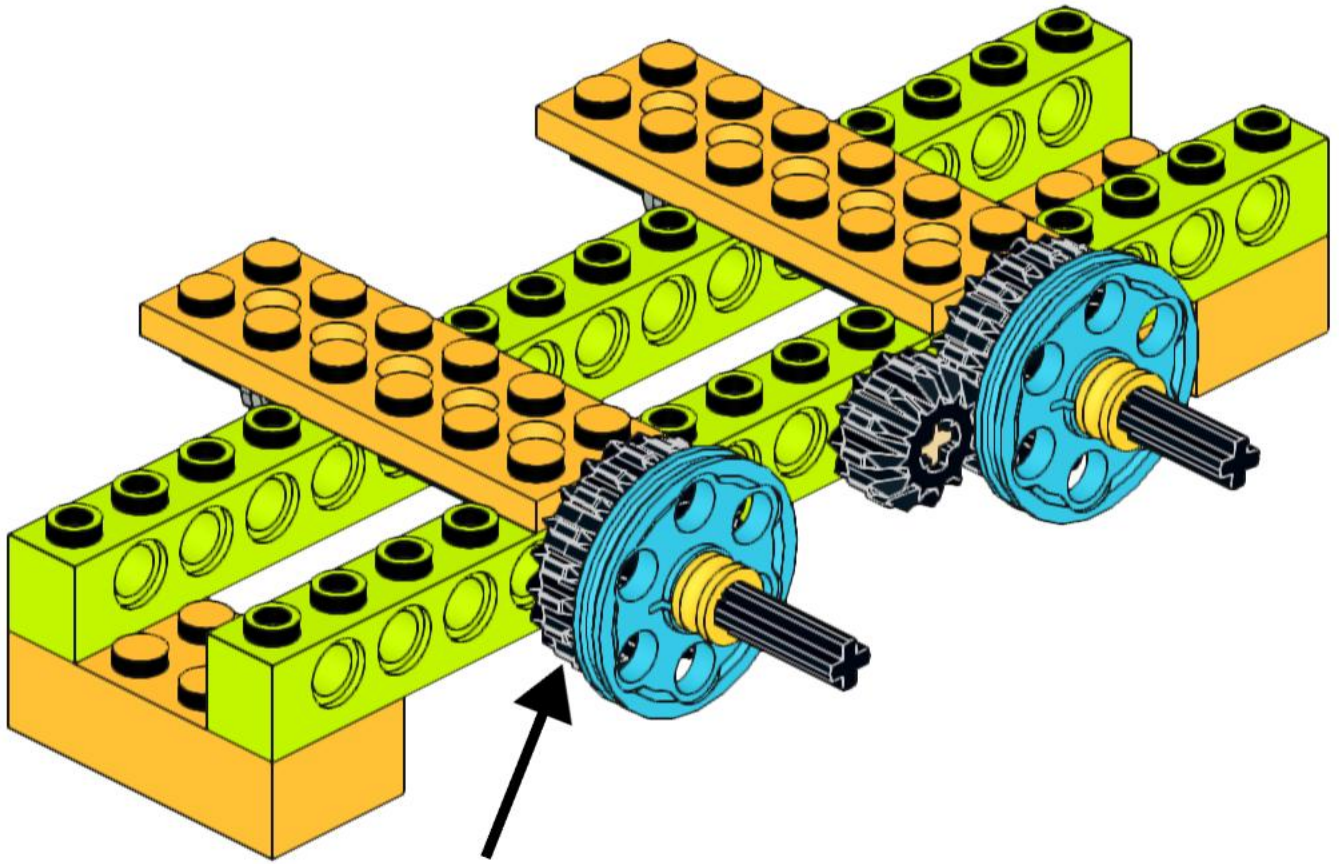


9



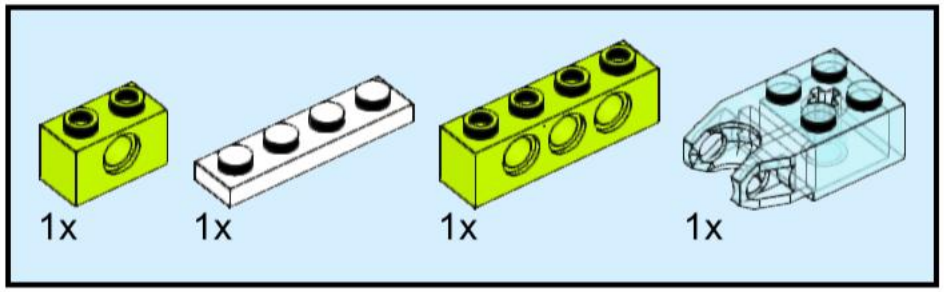


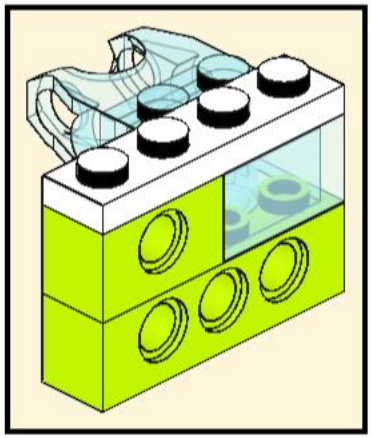
10

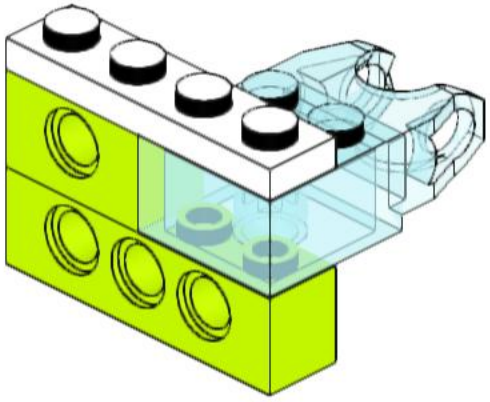


If you are starting at this step, you might have to add this large black gear.

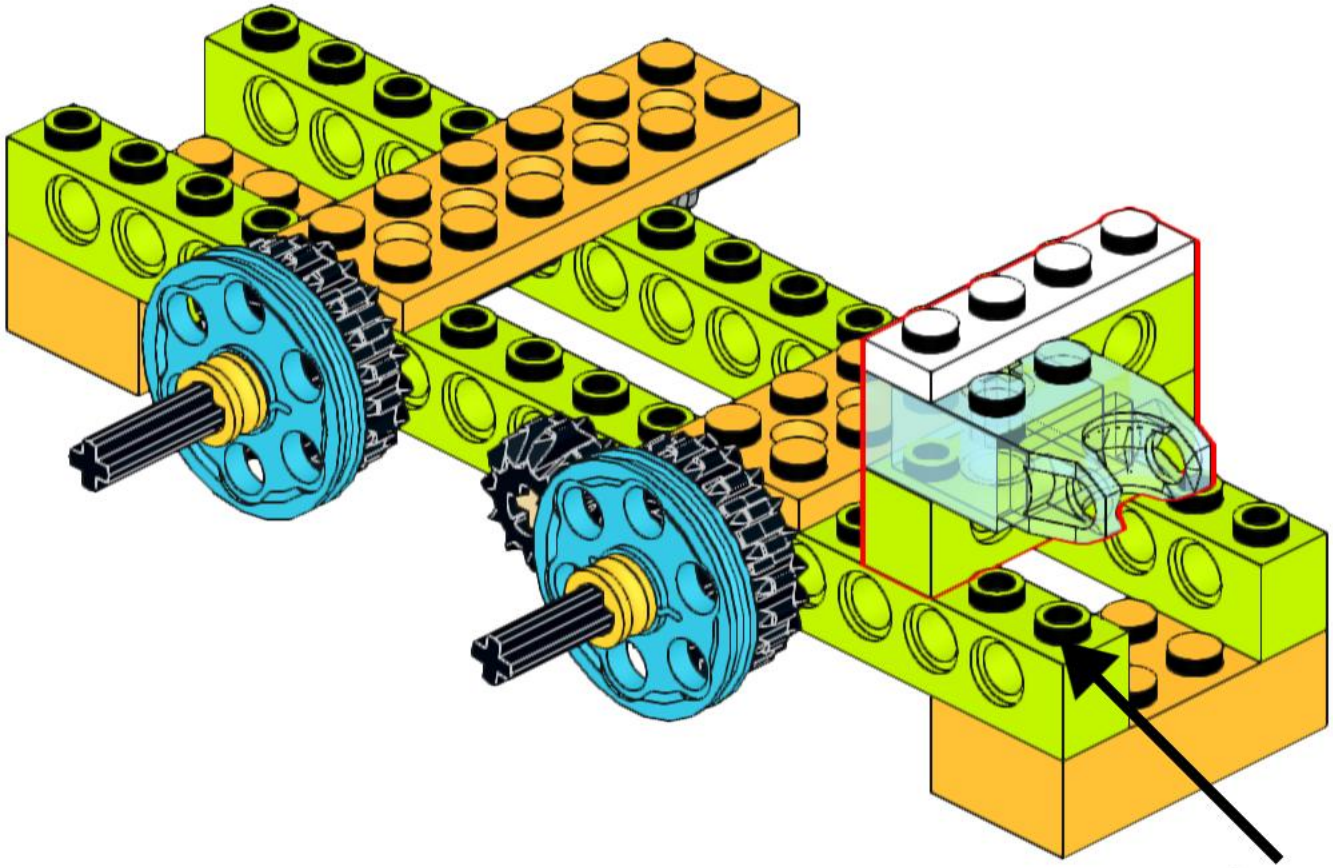
11





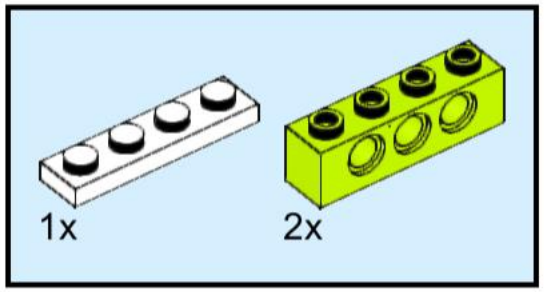


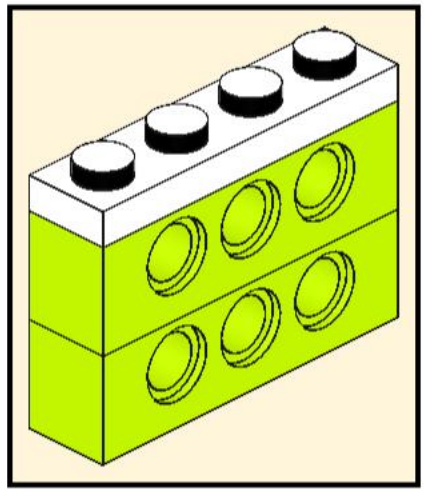
12

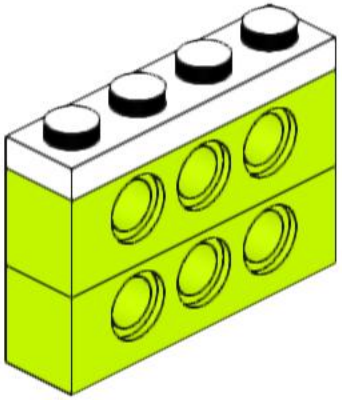


Leave two free bumps.

13

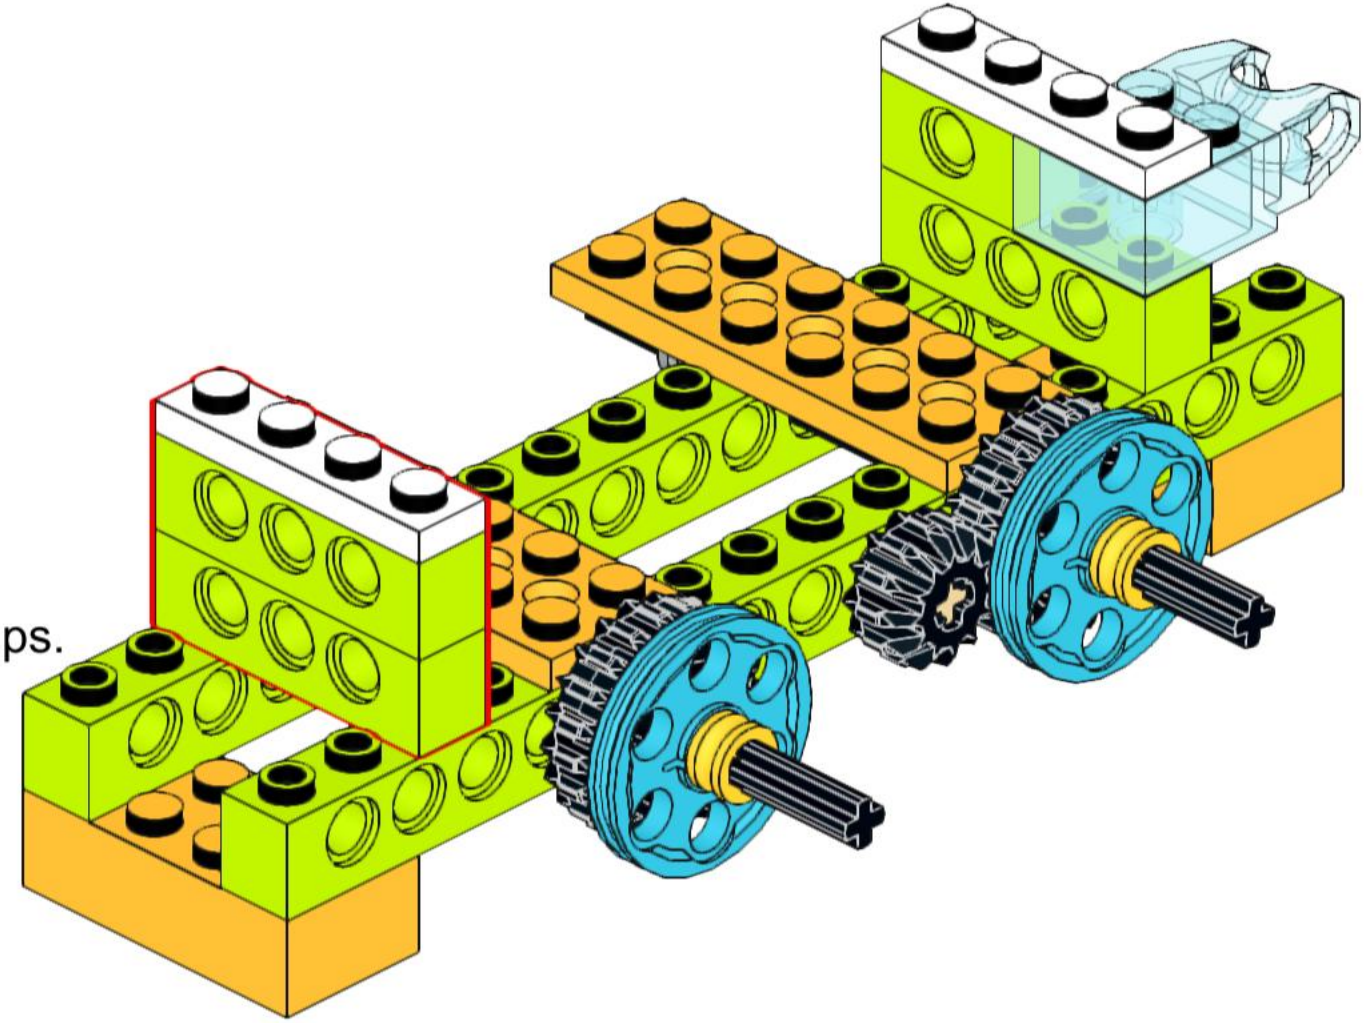




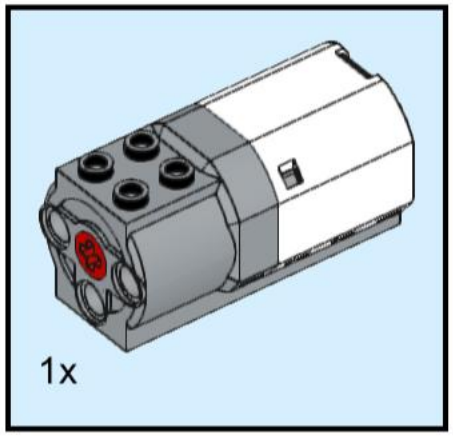


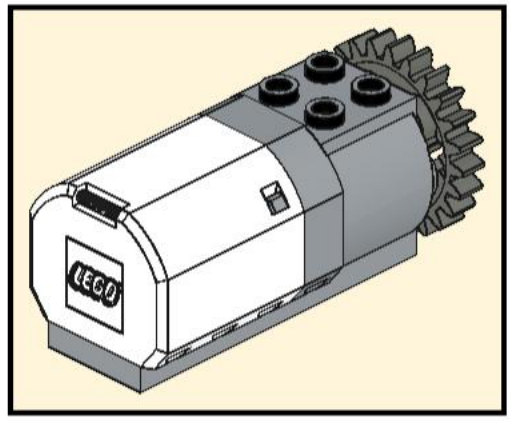
14

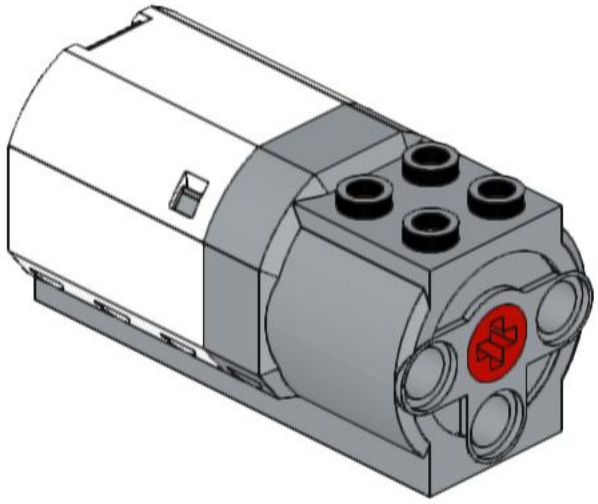
Leave two free bumps.



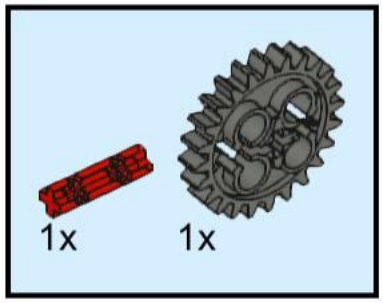
15

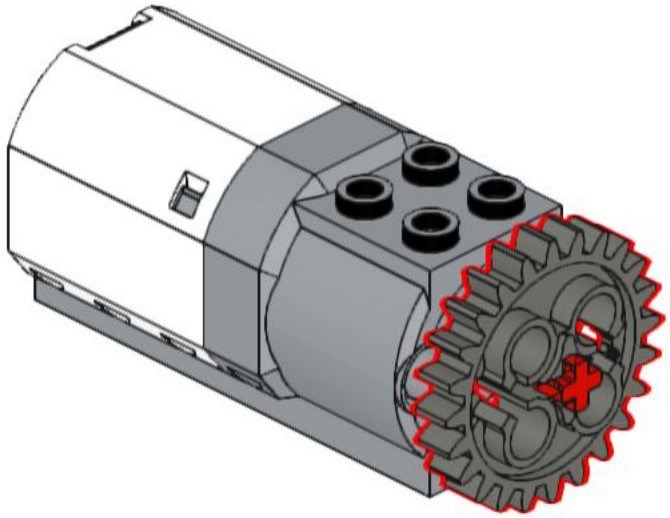






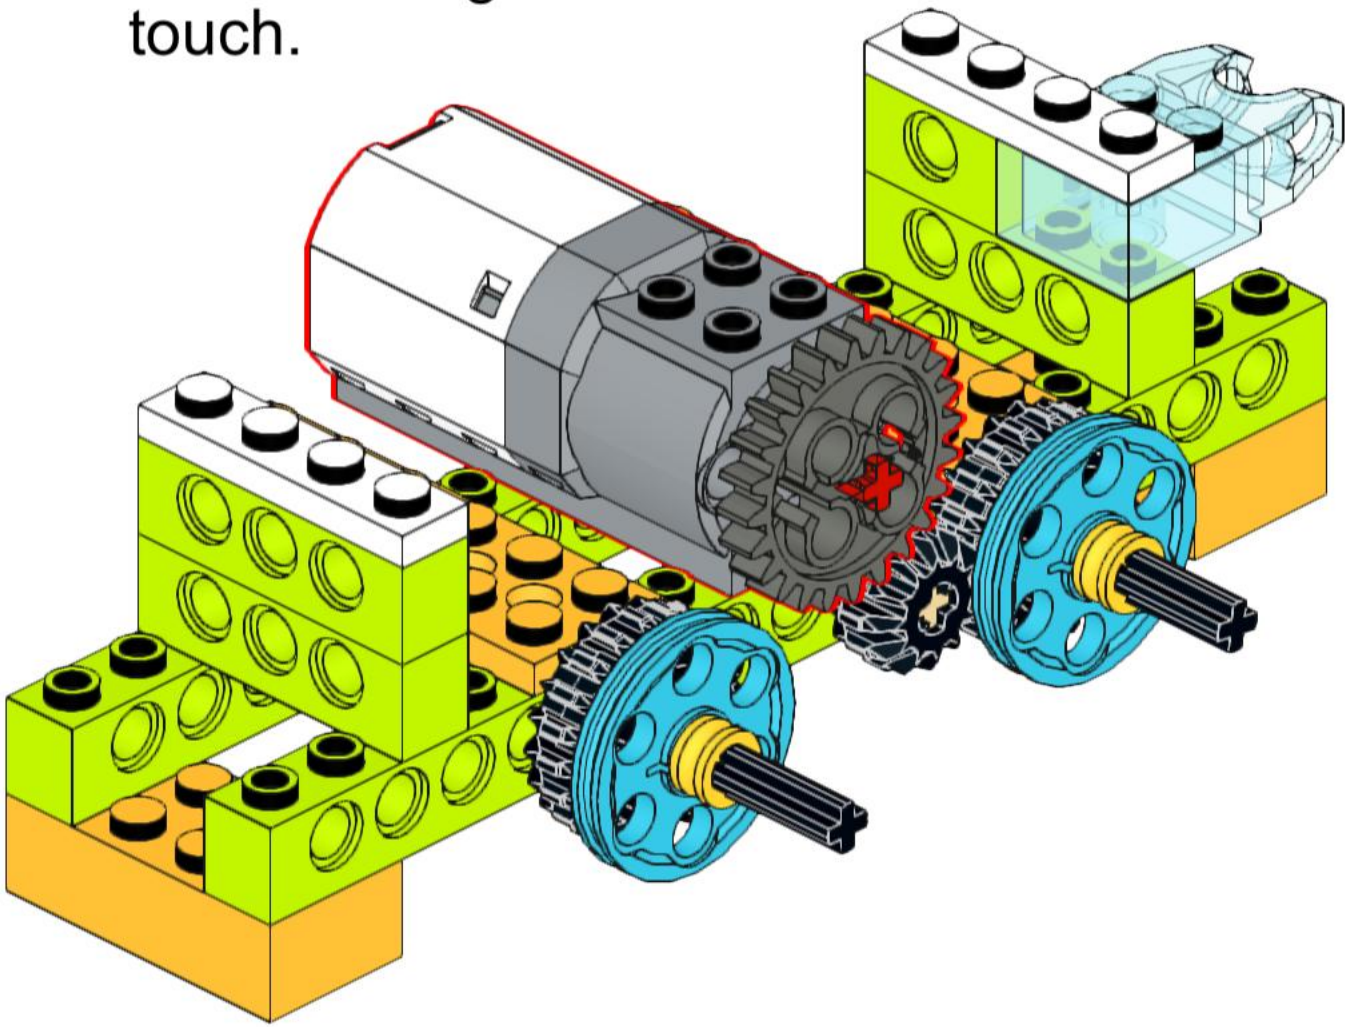
16



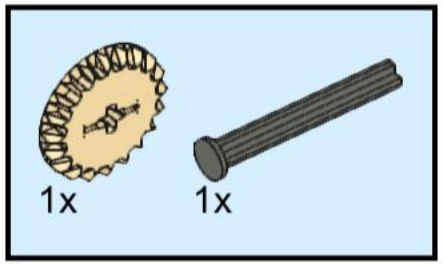


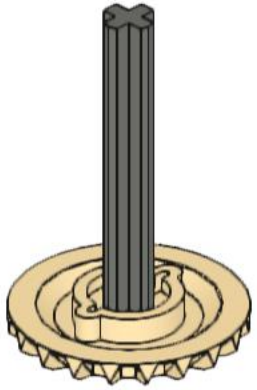
17

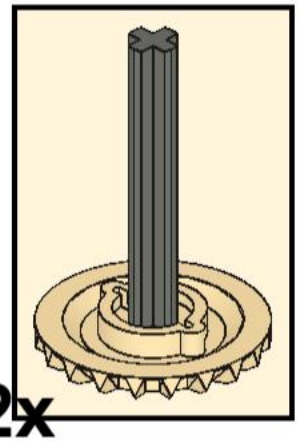
Gray gear and the small black gear must touch.



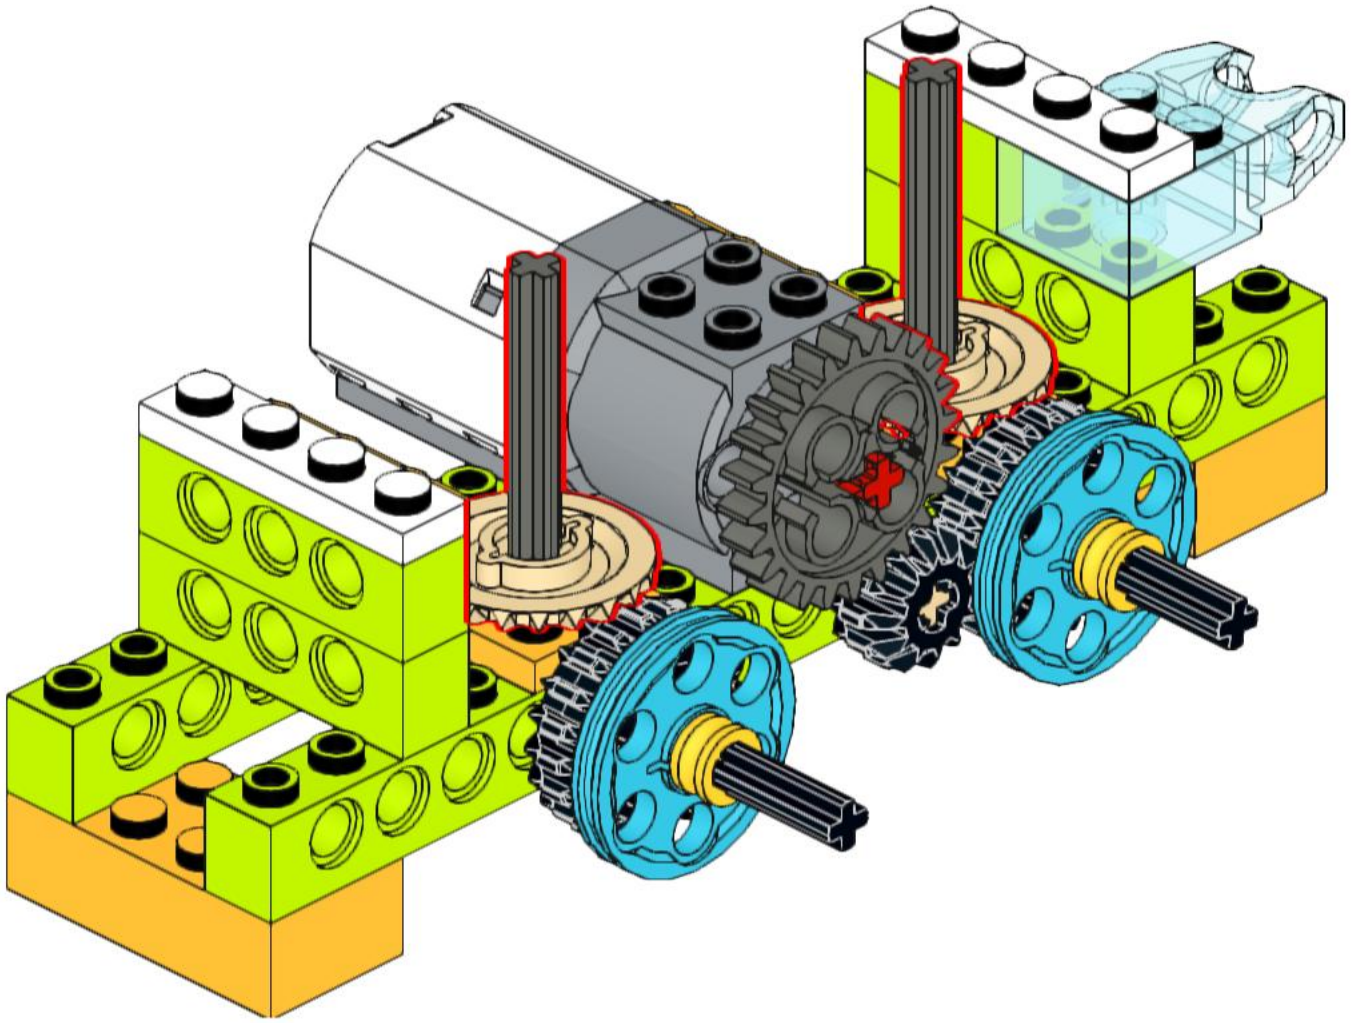
18



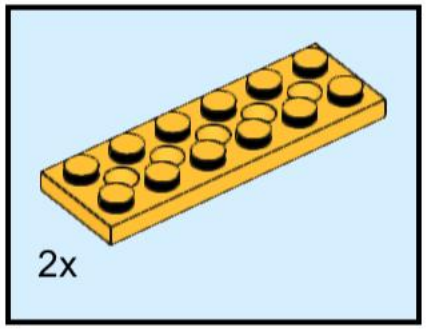


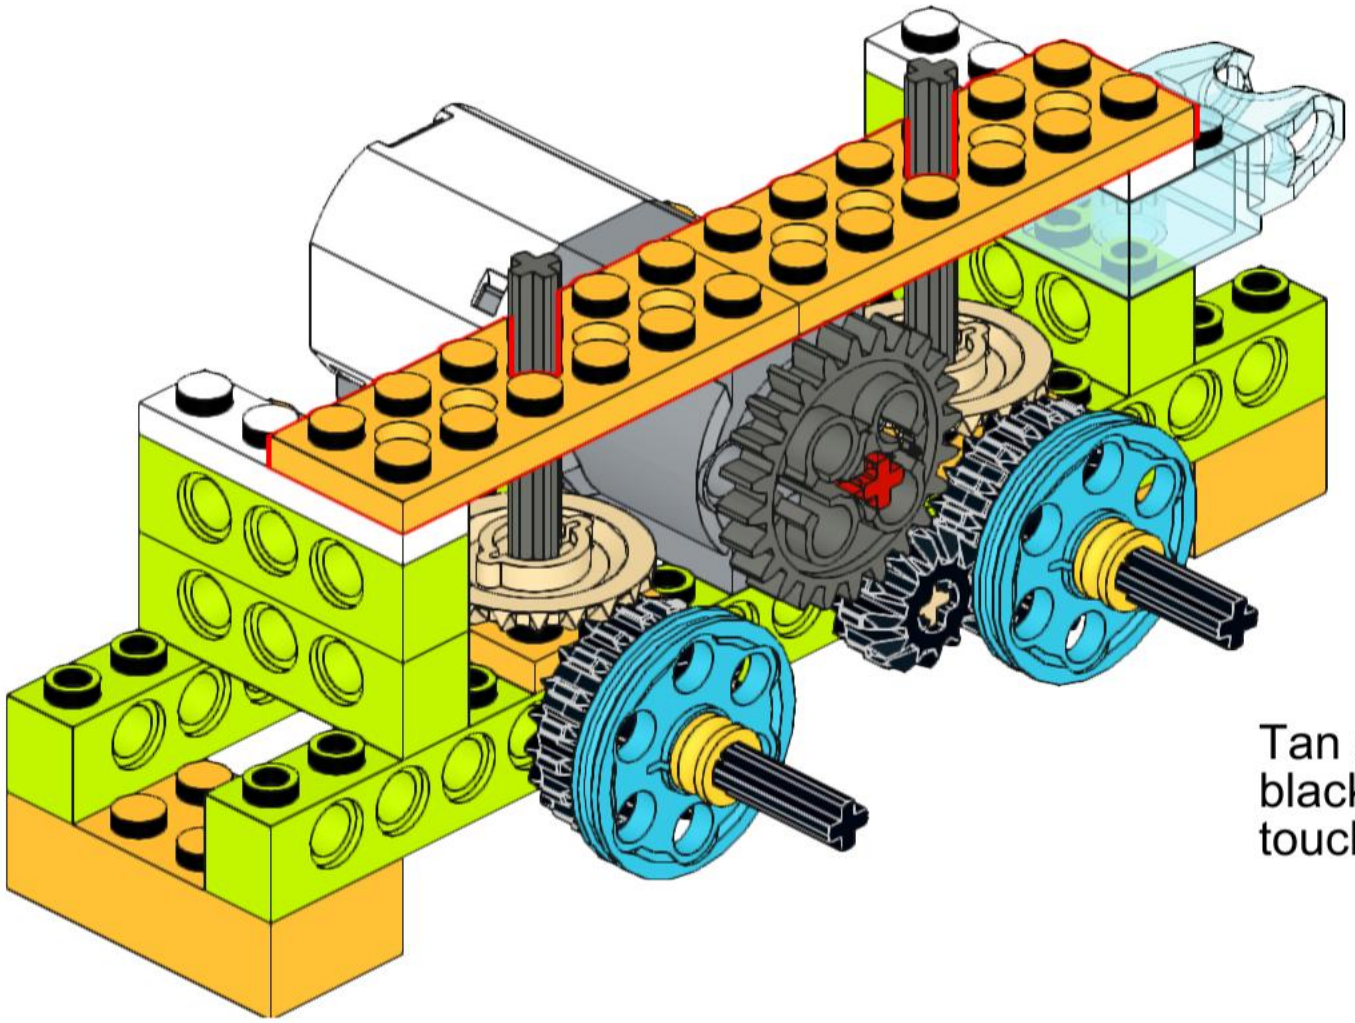


19



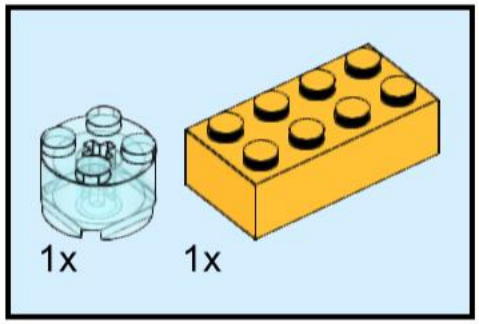
20

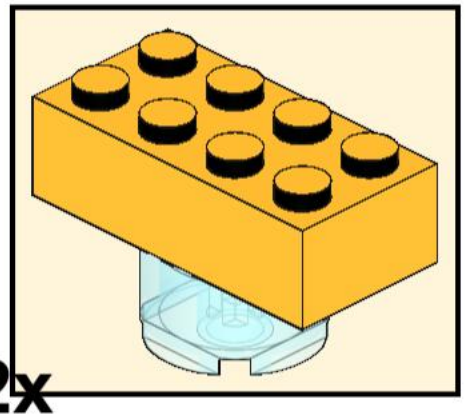


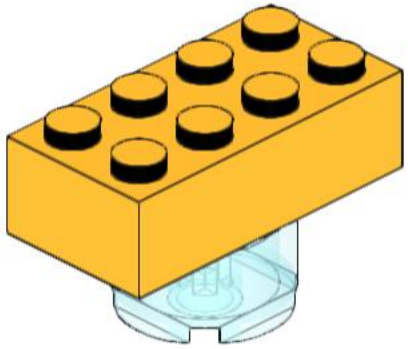


Tan gears and large black gears must touch.

21

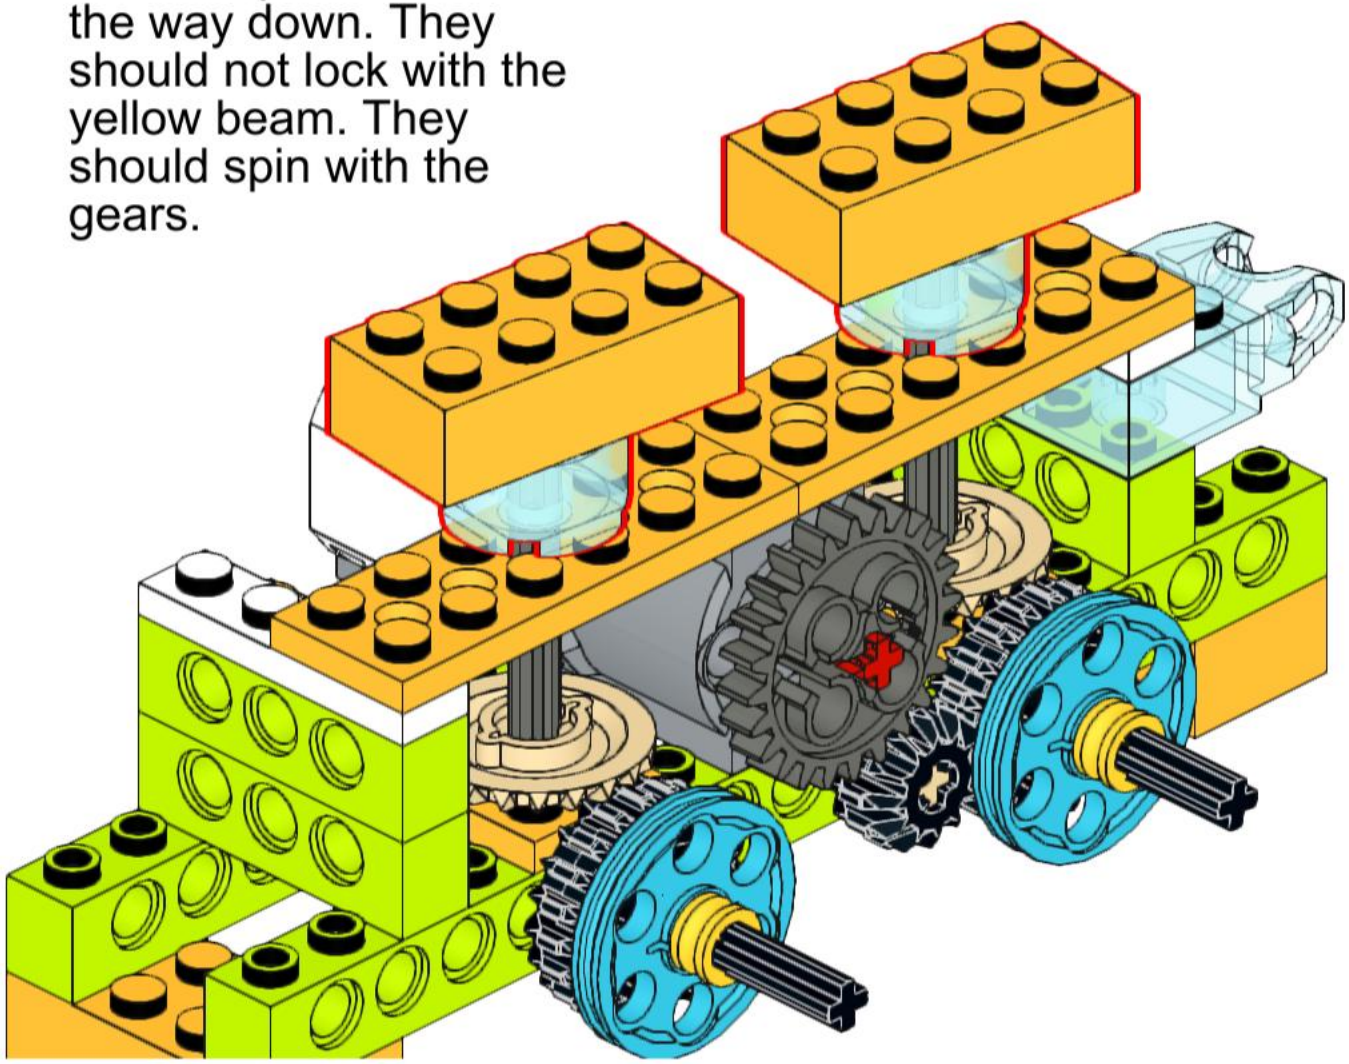




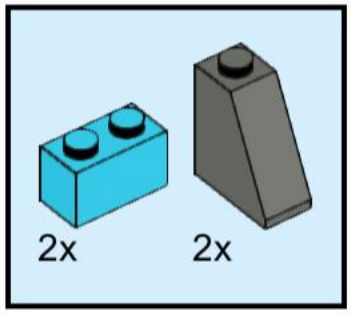


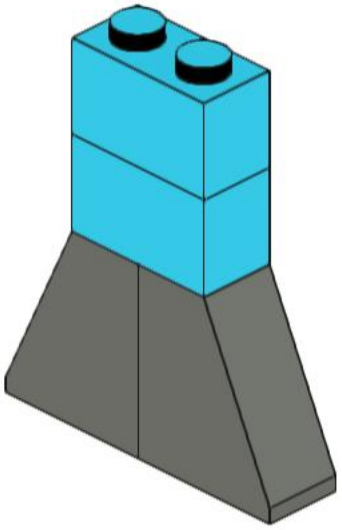
22

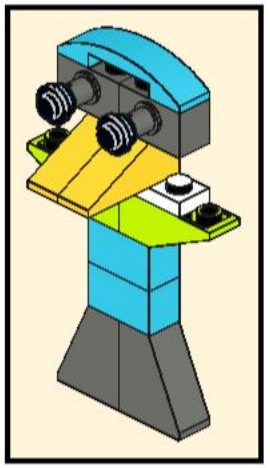
Do NOT push these all the way down. They should not lock with the yellow beam. They should spin with the gears.



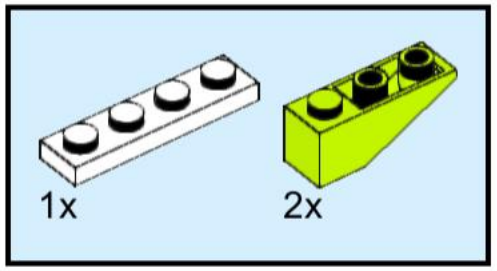
23

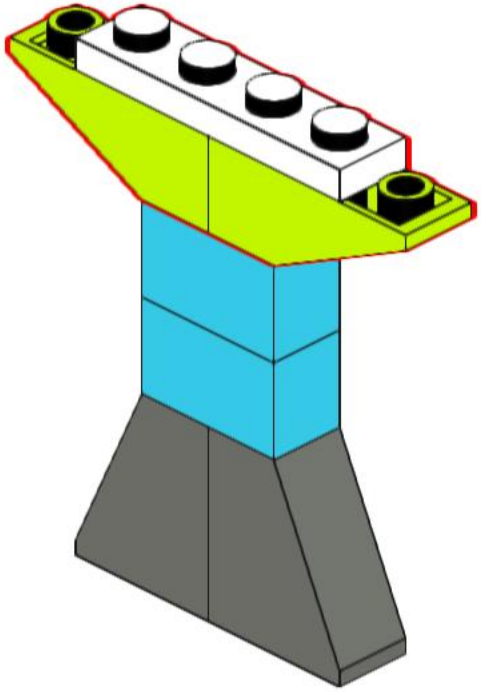




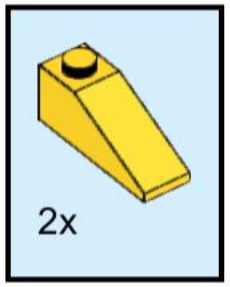


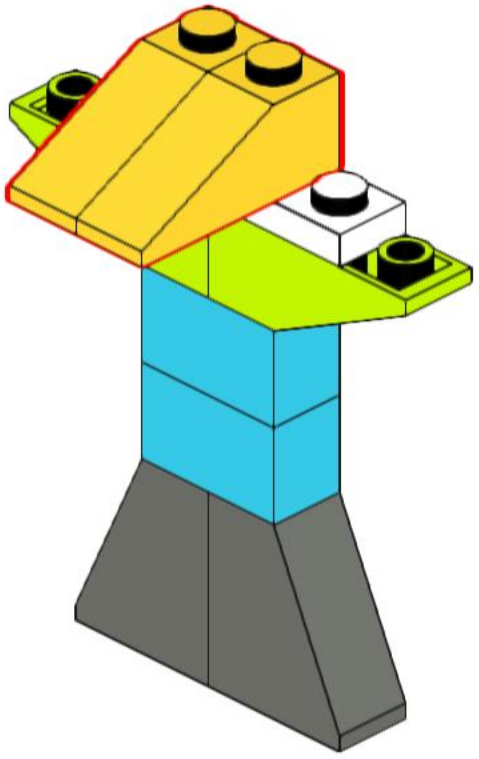
24



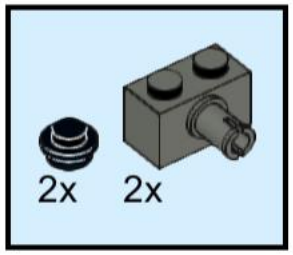


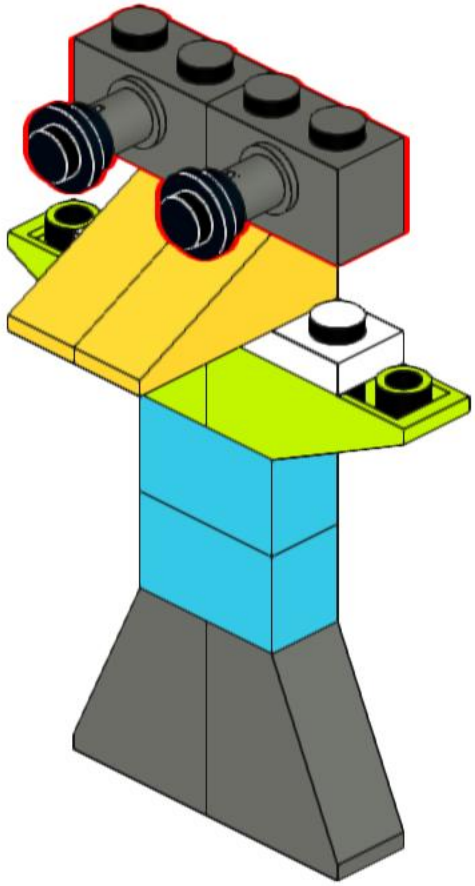
25



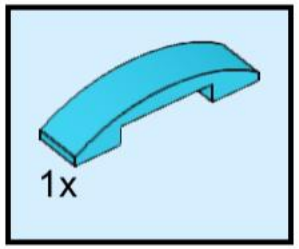


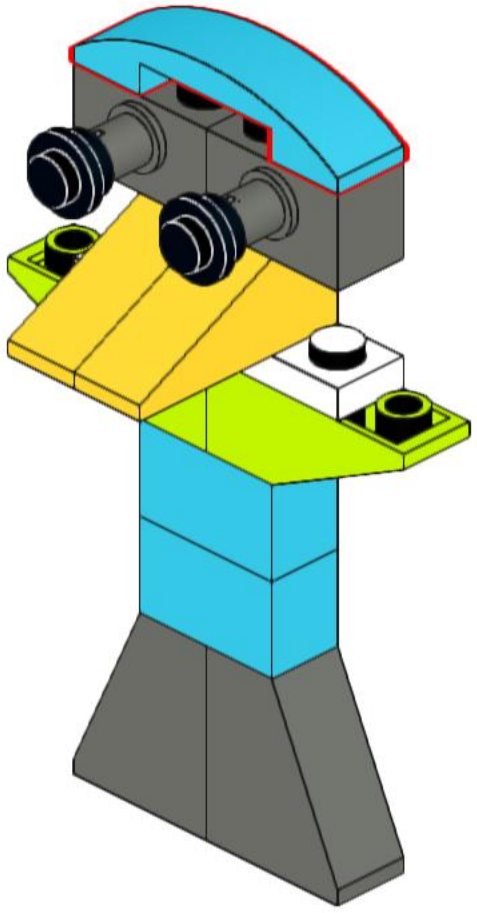
26



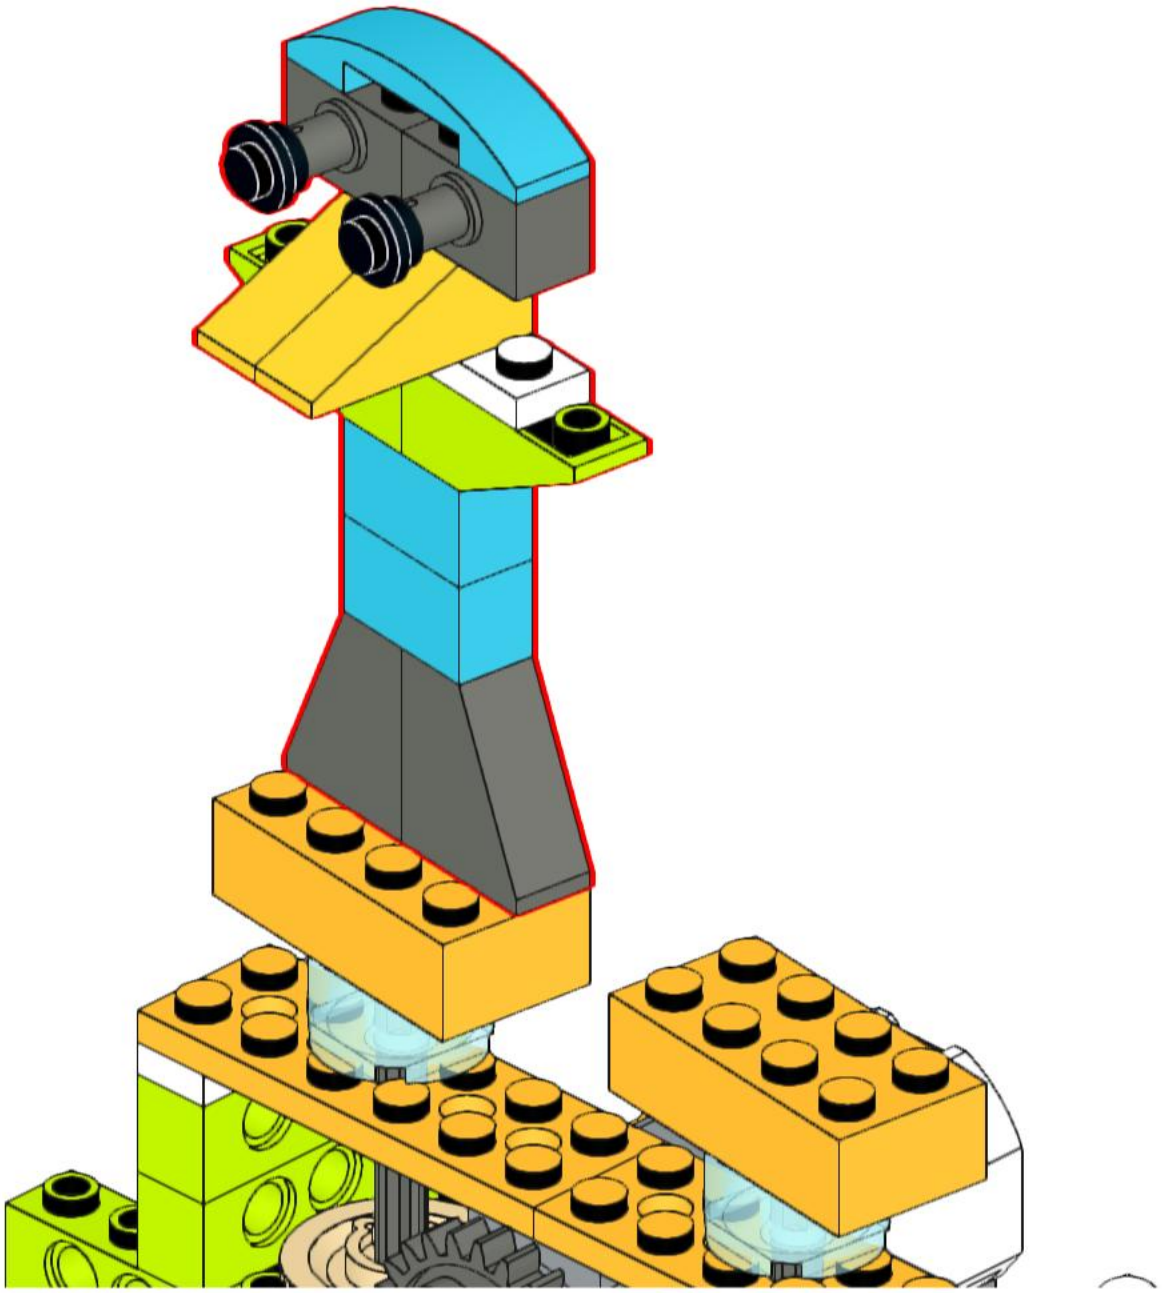


27

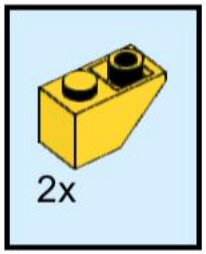


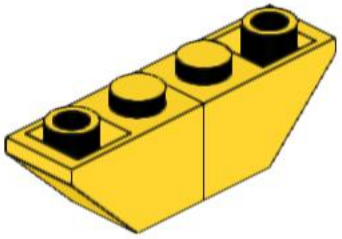


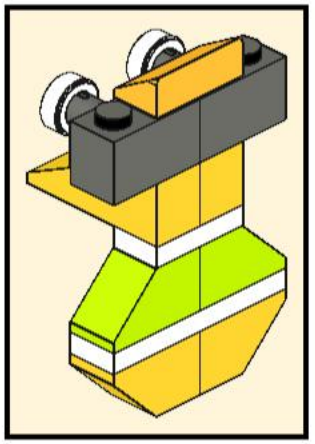
28



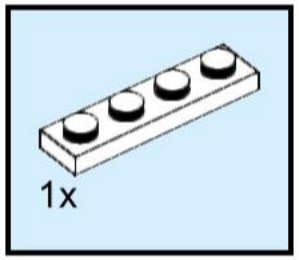
29

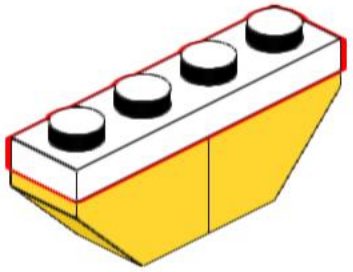




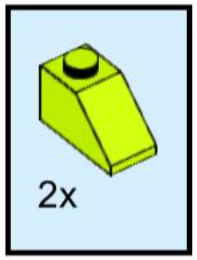


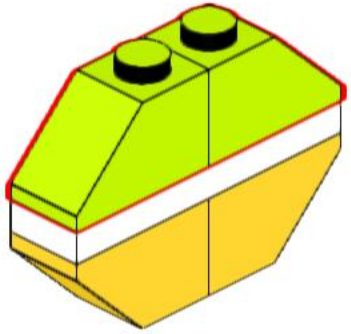
30



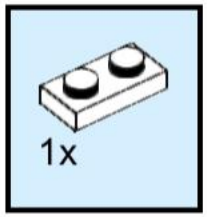


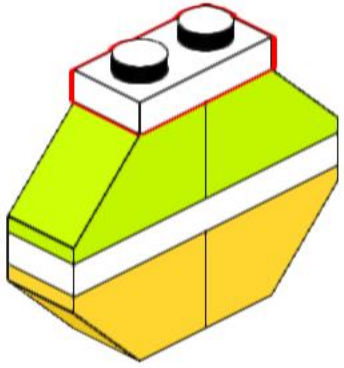
31



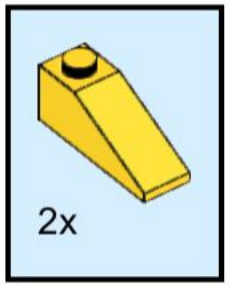


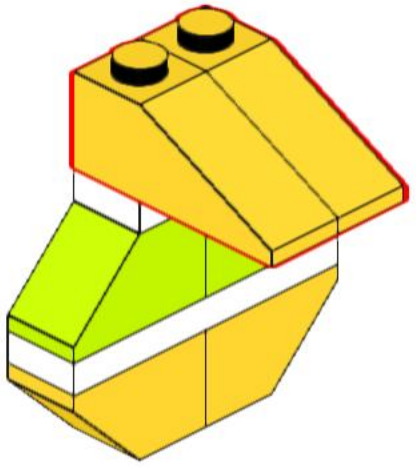
32



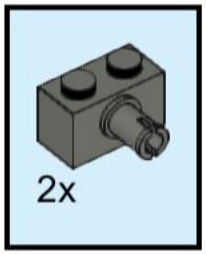


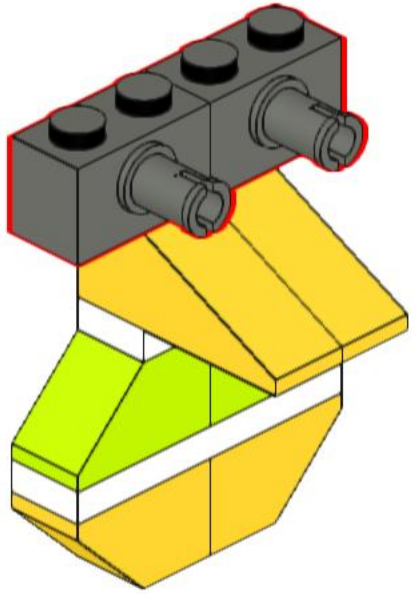
33



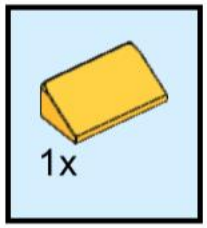


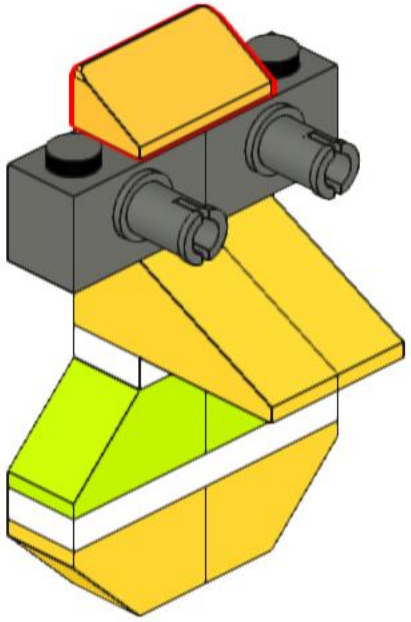
34



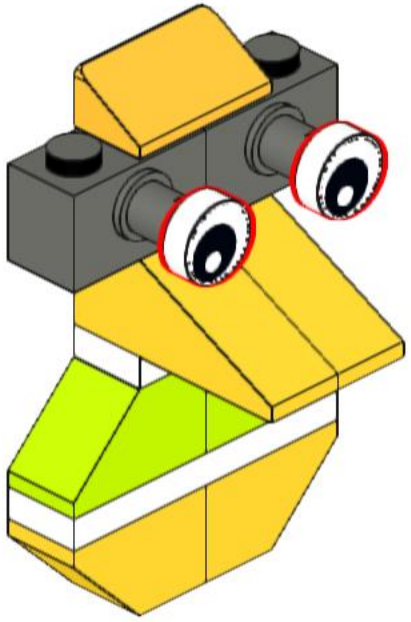


35

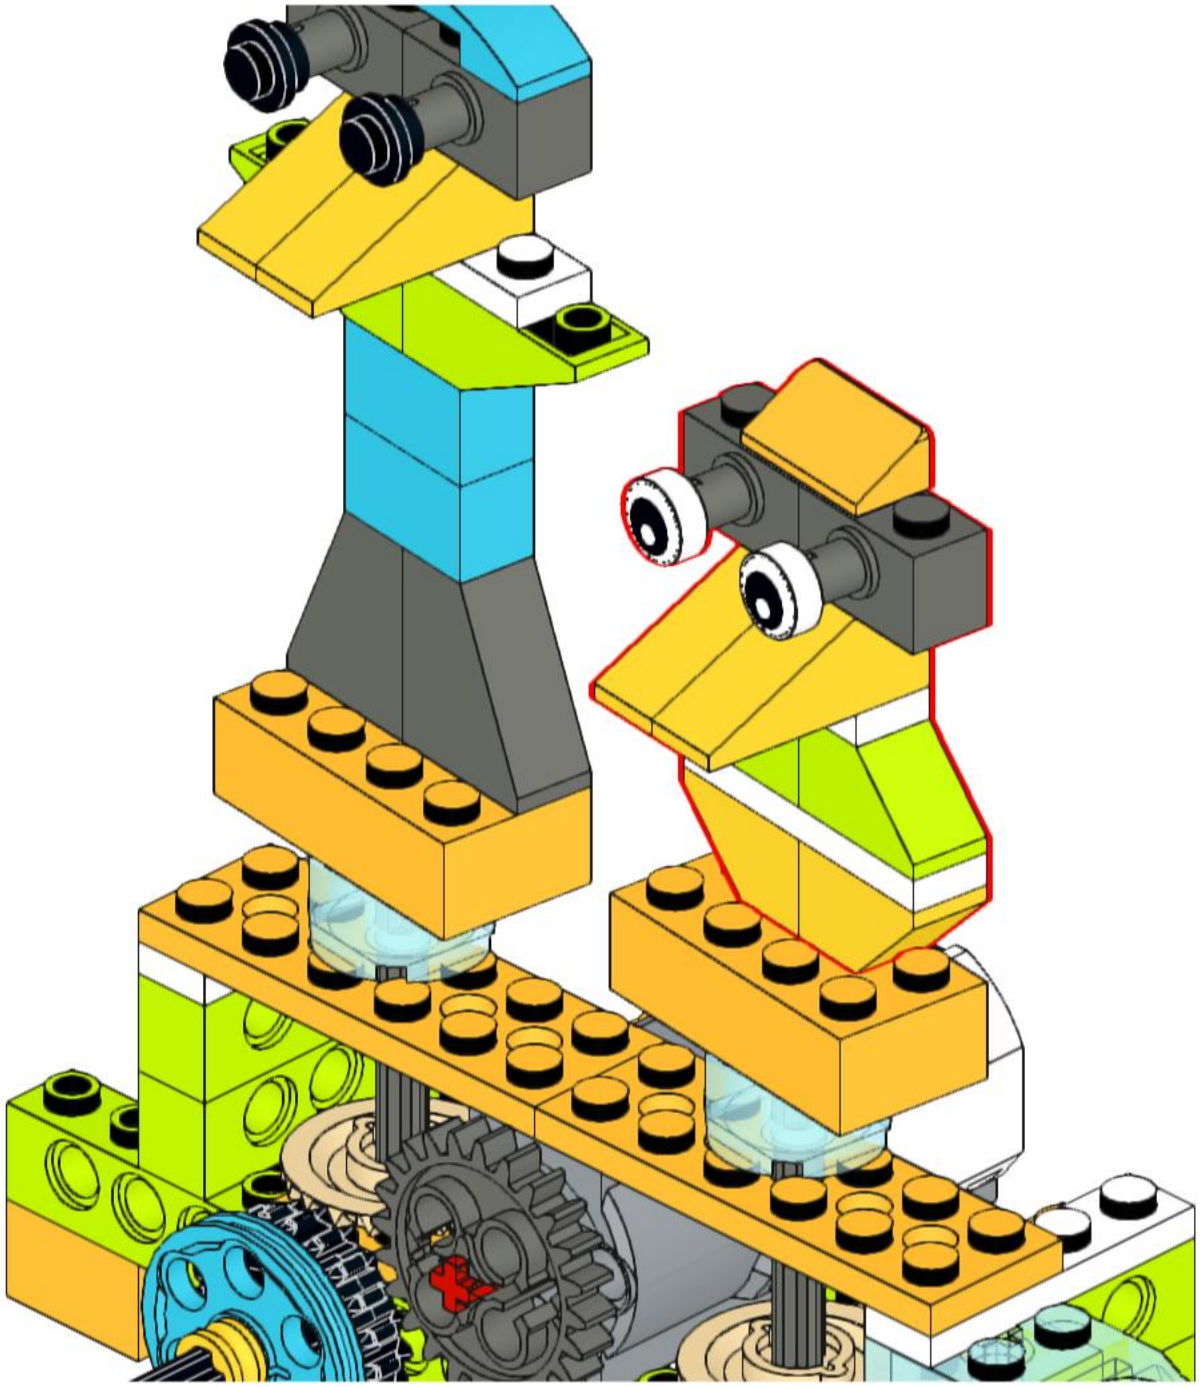




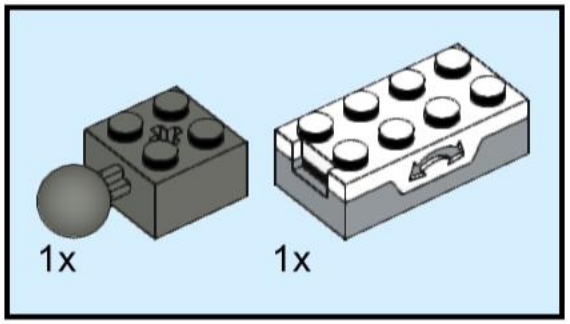
36

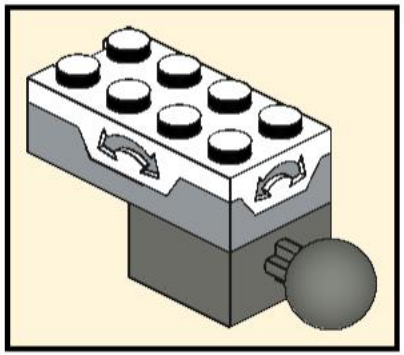


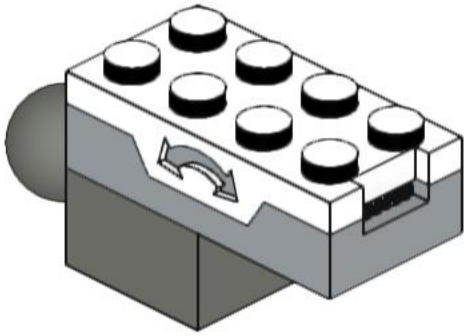
37



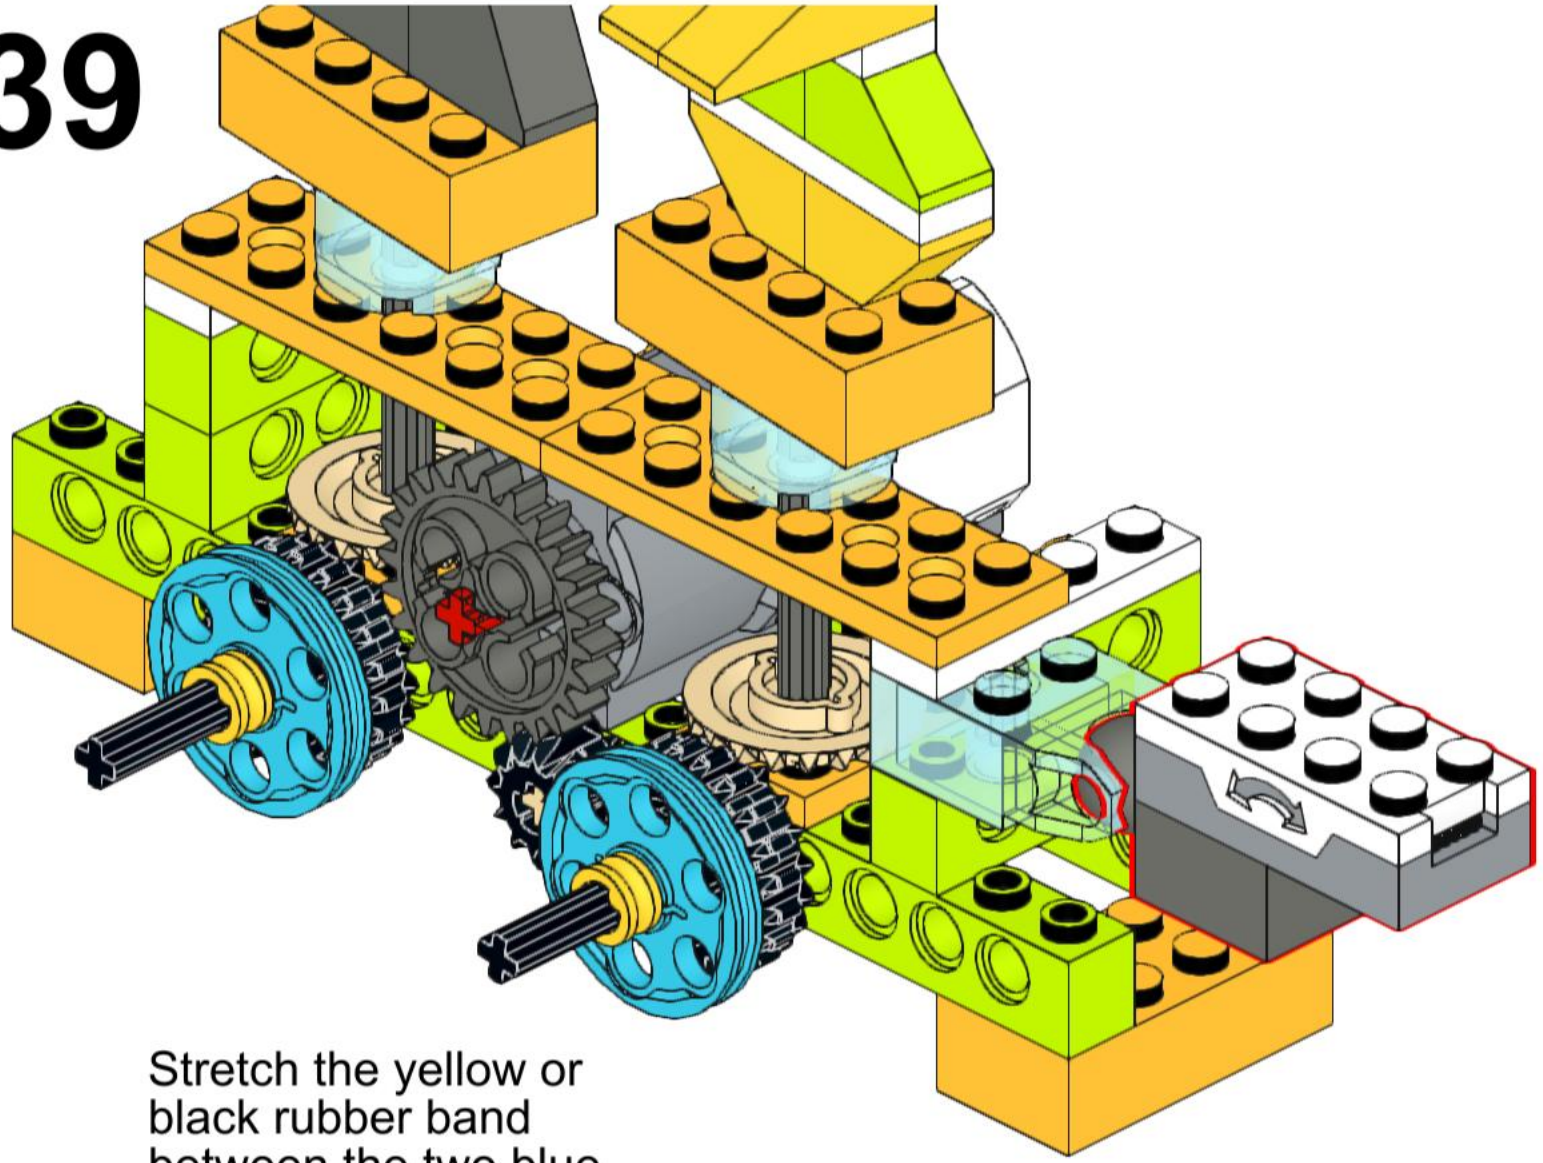
38







39



Stretch the yellow or black rubber band between the two blue wheels.
